Dear Omar,

There are many art museums in Egypt. One of them is the Museum of Modern Egyptian Art. It's in Cairo. It's a part of the Cairo Opera House. There are art works by Egyptian artists from the 20th and 21th centuries. The artists' works are really good because they showed what life was like in Egypt in the past and now. There are portraits of important and normal Egyptian people in the museum. There are also a lot of sculptures, both big and small. The museum is free so you don't have to pay anything to visit it.

They don't make much noise and they don't cause as much air pollution as other forms of transport like cars, trains and lorries. We can use drones to help the wildlife after floods or fires. Drones can fly over places where we can't go to. We can think of more things we can use drones for.

Subject : how to learn best

Hi Adel,

How are you and your family ? How is your school ? I send you this email to tell you about how to learn best. You can learn things by trying to do them and sometimes find it hard to understand by listening or reading. If you love to watch videos, you can learn best by seeing things. You can also learn best by listening. If you love music and are often talking, you find it easier to learn by listening to people explain things to you and by discussing things with them.

Yours,
Ali

3 Read the following, then answer the questions :

When we taste food, our mouths tell us if the food is sweet, salty or spicy. But why do some people like some types of food and not others ? There are many reasons. For example, some people don't like a type of food because they remember being ill after they ate it.

However, it is believed that you can change what you like. We often don't like unusual food because our brain doesn't understand it. So if you want to start liking food that is healthy, such as green vegetables, you should eat it more often. Then your brain will recognise it. You can also train your brain not to like something. For example, many people who stopped putting sugar on things found, after a time, that they didn't like sweet things.

So if you like sweets and don't like vegetables, you should train your brain to eat more healthily!
